**Page 7**

# What is this information about?

This information is about the plans for children and young people with special educational needs or disabilities living in North Lincolnshire.

This new plan tells you how children and young people with special educational needs or disabilities are included in our One Family Approach.

The One Family Approach is about making sure that everyone is at the heart of what happens in North Lincolnshire. This includes:

- Children and young people
- Families
- Communities

If you need support to understand this information you can ask a friend, advocate or support worker to help you.

# Plans in North Lincolnshire

North Lincolnshire council works closely with other organisations to help make life better for the people of North Lincolnshire.

There are lots of different plans to help this happen. These include:

- The Children's Commissioning Plan
- The Children's Challenge
- Helping Children's and Families in North Lincolnshire
- Special Educational Needs and Disabilities Code of Practice 2014

All these plans are there to make sure that children and young people with special educational needs or disabilities in North Lincolnshire are supported to have a good life.

This means that people get the right support:

- At home
- In school
- In the community

# What do we want to see happen?

We all want to live in a place we call home, with the people and things that we love.

To live in communities where we look out for one another, doing the things that are important to us.

This is what the One Family Approach is all about in North Lincolnshire.

We want children, young people and families to be:

- Happy
- Positive
- Themselves
- Not easily affected by what is happening around them and to them
- Excited
- Confident

# How did we work out what was important for us to work on for the next four years?

To help us plan our work for the next 4 years we got lots of information from different places and people.

This includes:

- The Joint Strategic Needs Assessment SEND 2019 which tells us about children and young people with special needs or disabilities living in North Lincolnshire.

- Listening to children and young people with special needs or disabilities and their families:
  - Parents' Forum
  - Youth Council

- Checking out how well we have been doing and where we needed to make changes.

# We have 4 important areas of work that will help people to have a good life

**Safe** – we will do work to make sure that children and families feel safe in their homes, schools and communities.

**Well** - we will do work to make sure children and families have good health and emotional wellbeing.

**Successful** - we will do work to help children and young people have excellent education and better skills.

**Connected** - where children and families live in communities that are doing really well.

# Who will check that the work in this plan is happening?

The work will be checked at different times throughout the year by the:

- Special Educational Needs or Disabilities Standards Board
- Health and Wellbeing Board
- Integrated Children's Trust

We will write a report called the Special Educational Needs or Disabilities Inclusion Plan Annual Report.

The report will include all the work that we have done to make the Special Educational Needs or Disabilities and Inclusion Plan happen.
